Agenda 2: To acknowledge the report of the Company's operating results in year 2018.

The Managing Director reported the Company's operating results in year 2018 to the shareholders for acknowledgement which can be summarized as quoted below.

“In 2018, all of Thai people of His Majesty King Maha Vajiralongkorn Bodindradebayavarangkun would be filled with joy and rapture when seeing pictures of many people standing in a row, no matter soaked with the heat or the rain, in front of the office of Bureau of the Royal Household, on Ratchadamnoen Klang road in order to apply for the Volunteer Spirit Project called “We do good by heart” which was organized by His Majesty King Maha Vajiralongkorn. The project was about the well-being of the people which His Majesty has his royal intention to keep on and cumulate the royal duties and the royal projects of His Majesty King Bhumibol Adulyadej Boromnajibophit who had done many multifarious duties to cure and avert all suffering so that his people can live better lives. Thus, His Majesty has set up the project “We do good by heart” to provide public services in various areas to alleviate all suffering and sustainably lessen such problems for the people.

I would like to inform that the economy in Thailand in 2018 had expanded only a little from the prior year in which in the first half, the economy had expanded well but in the second half, the economy had slowdown due to the impact on the export of Thai products from the trade war between United States and China and also from the slowdown by the trading partners from other factors. The impact from the trade war is expected to be an important factor that will suppress the expansion of Thai economy in 2019. The analysts have forecasted that the trade wars will be prolonged and affect economic growth and the world's trade volume. These will have impact on the confidence of the business sectors especially to the investors who may decide to defer their investment. Nonetheless, Thailand may get some advantages from the trade war by the movement of production and investment base from multi-international companies. In addition, as Thailand has clear vision in the EEC project and attractive conditions on the investment promotion policy to the investors, all of these will help the country to grab the advantage to be production base in some industries when compared to other countries in this region. Furthermore, the clear cut on the general election to be happened on March 24th, 2019 will result in positive view to the overall investment of the country.

However, I would like to inform that even in 2018, the overall picture of economy of the country was not so good but the Company, by the executives and all employees, still determined and dedicated to work hard with all their capabilities to generate positive performance to the Company. As you can see that in 2018 the Company and its subsidiaries had turned to be profitable with the significant increase in the revenue and the total profit. In 2017, the Company and its subsidiaries' total revenue was Baht 1,018.84 million, while in 2018 the total revenue was Baht 2,509.13 million. For the net profit (loss) in 2017, the Company and its subsidiaries had losses at Baht 474.58 million compared to the year 2018 which the Company had a profit of Baht 85.74 million. However, if we considered the earning before financial costs and taxes, the profit would be Baht 525.97 million. The financial cost was rather in a significantly high level as a result of the crisis of bill of exchange in 2017. If we consider only the Company, excluding its subsidiaries, in 2017, the Company had a total revenue of baht 174.92 million while in 2018, the total revenue was Baht 664.39 million. In 2017, the Company

had loss of Baht 367.50 million but turned into profit in 2018 at Baht 101.24 million which I have confidence that the Company will return to generate continuous profits again.

According to what I have reported to you since last year that the Company had entered into a joint investment with the Country Garden Group which is a leading company in real estate development from People Republic of China to establish BGY&TFD Properties Co., Ltd. to invest in a residential condominium project in Ratchadapisek-Thiamruammit area under the project name “The Artisan” with total area of approximately 8 rai, comprising of 4 buildings of 34-storey condominiums, total space of 123,470 sq.m. with salable area of 70,000 sq.m. The project comprises of 1,337 residential units with a total project cost at Baht 6,800 million. Currently, it has already been sold for more than 60% and expected to be sold out within the year 2020. Construction is expected to complete and ownership can be transferred to customers by first quarter of year 2020. According to the plan, the Company will start to receive the revenue since year 2020.

For the TFD industrial estate 2 which is now under the speed-up process for the construction of public utility system in order to serve the customers who will move to start their operation and also to enhance the sale so that the performance for the year 2019 will be better improved than last year.

The Company would like to thank our employees for their cooperation and would also express our sincere gratitude for the strong support from our shareholders, customers, business partners, financial institutes, mass media, investors both local and foreign and the general public. The Company sincerely hopes that it will gain trust and kind support continuously in the future”.
