Agenda 2: To acknowledge the report of the Company's 2007 operation results

The Chairman submitted the Board of Directors' annual report to the Meeting and asked Mr. Apichai Taechaubol, Managing Director, to report TFD's 2007 operation results to shareholders as follows.

In 2007, the Company performance was largely unchanged from 2006, recorded a total income of Baht 562.90 million and a net profit of Baht 45.18 million as compared to a total income of Baht 411.69 million and a net profit of Baht 65.49 million a year before. However, the Company was still able to continue paying a dividend to its shareholders.

Despite the economic slowdown in 2007, we never faltered. TFD still committed to strengthen our business. We established the TFD Industrial Estate at an intersection between the Motorway and the Bangpakong-Chachaengsao Highway at Tha Sa-an Sub-District, Muang District, Chachaengsao Province. This is the first industrial estate that we developed and set up when we signed a joint venture agreement to develop the TFD Industrial Estate with the Industrial Estate Authority of Thailand (IEAT) on 11 May 2007. At present, the project is in its first-phase development on

an area of a little more than 300 *rai*. Design has been made and infrastructure such as road, draining and utility systems has been mostly constructed. We expect to start selling the project by Q2 this year.

Aside from industrial estate development, we also develop high-rise buildings as either a residential or an office building. One of the projects is the “59 Heritage,” a two-building project of 12 stories and 27 stories, respectively. We have been able to sell 60 percent of its saleable areas. In Q3, we will start developing a land on Rajdamri Road in Soi Mahadlekluang 2 as a residential condominium as another source of our income.

We would like to inform you that when developing either an industrial estate project or a high-rise building, we commit to a quality management process. That’s why our management is setting up clear procedures with a control system to effectively reduce repetitive work that is eventually translated into a reduction of operating costs and expenses. The management introduced the ISO 9001-2000 to increase our efficiency and we have been certified by Tuv Nord (Thailand) Co., Ltd. since 21 December 2007.

We truly believe that despite roadblocks and obstacles, we have been able to overcome with resilience. In 2008, having been through a period of political intensity, Thailand has got a new democratically-elected government. Foreign investors are having confidence in the country’s political stability and start to come back. 2008 should be a golden year for us because our products are ready for sale at the moment the Thai economy is on the rise.
